VANITY FINISHES

VANITY FINISHES

We use the finest furniture-grade select hardwood available for our cabinets and cabinet doors. Because hardwood is a product of nature, variations in color and grain are to be expected. Therefore, while your cabinetry will have the same appearance as our samples, it will be unique and perhaps noticeably different. You can anticipate the consistency of quality and craftsmanship as well as the character of natural wood in all of our cabinetry.

VANITY INSTALLATION RECOMMENDATIONS

INSTALLATION TEAM

- We recommend professional installation by your builder or general contractor.
- A two person team is recommended.

PLUMBING & ELECTRICAL

- All plumbing rough in complete, per your local code.
- Water supply available.
- Verify all points are free of plumbing and electrical lines.
- Verify the location of the vanity allows for the operation of doors and drawers without obstruction.
- Cut holes in the back panel to accommodate plumbing lines. Verify the plumbing is centered under the sink location.
- Verify floor is level. If the floor is out level, it may require shimming.
- Attach the vanity securely to wall framing for proper support.

HARDWARE

- Cabinet hardware installation is recommended by a professional.
- All drawers interfering with possible plumbing are sized on a 9" drawer track, there may need to be additional cut outs.
